Professional Summary

I am a second-year undergraduate student at NIT Andhra Pradesh with a passion for programming in Java and Python, and a strong understanding of Data Structures and Algorithms (DSA). I specialize in front-end web development, focusing on building responsive, user-friendly applications. Through hands-on projects, I've developed strong problem-solving skills and enjoy tackling real-world technical challenges. I'm eager to expand my expertise, explore emerging technologies, and contribute to impactful software development projects.

Education

NIT Andhra Pradesh

Aug 2023-May 2027

B.Tech in Biotechnology with a Minor in Software Engineering

- CGPA: 8.53/10
- Combining a strong foundation in Biotechnology with a specialized minor in Software Engineering, focusing on programming, algorithms, and software development. This interdisciplinary curriculum equips me with technical expertise and problem-solving skills, aligning with roles in software development.

Projects

BookMyWay – Travel Planner Application

github.com/Santhoshjk159/BookMyWay

- Built a travel planning app with ReactJS, allowing users to input trip details and view a cost breakdown for per-person and total expenses.
- Tools used: ReactJS, TailwindCSS, React Router

News24X7 – Personalized News Dashboard

github.com/Santhoshjk159/News24X7

- Built a responsive news dashboard with ReactJS, fetching real-time news and enabling users to filter articles by category or preference.
- Tools used: ReactJS, TailwindCSS, News API

Technologies

Languages: Java,Python,JavaScript,HTML,CSS

Certifications

Java with DSA and System Design @ PWSKILLS- **Certificate** | | Python programming @ Scaler - **Certificate** | | SQL and RDMS @ IBM - **Certificate**

Volunteering Experience

Executive Member, Google Developer Group(GDG) NIT Andhra Pradesh –

Oct 2024 – Present

- Designed over 20 visually engaging graphics for event promotions, social networks, and internal presentations, contributing to a 15% increase in event attendance.
- Created and edited 10+ video content pieces for GDG events, enhancing engagement through creative visuals and animations.
- Collaborated with a team of 30 members to ensure cohesive branding and high-quality visual assets, resulting in improved social media engagement and event visibility.
